Students will engage in cutting-edge projects in physics with faculty and graduate student mentoring in one of the research areas below:

- cosmology
- ultrafast lasers and attosecond physics
- nanoscale materials
- high energy and neutrino physics
- biological physics
- physics education

This program is open to current college undergraduate students who are U.S. citizens or permanent residents.

This REU program uses a rolling admission process until all positions are filled. Admissions begin 2/18/21

Apply online at phys.ksu.edu/reu/

You’ll need
- Name and email address of reference
- Current cumulative GPA
- Copy of most recent transcripts
- Short diversity statement
- Brief personal statement

Program contingent on COVID-19 status

RESEARCH

PROGRAM

K-State Physics REU offers a summer research program in physics. The 10-week program runs in conjunction with other REU programs on campus and includes scientific and professional development seminars, social activities, and networking

- Student Stipend: $5450
- Travel Allowance: $750
- On-campus Housing
- Meal Plan
