Kansas State University

Carlos Castellanos

DX Media Lab
Department of Art
Kansas State University

* special guest/visiting artist

The LASERs are a national program of evening gatherings that bring artists and scientists together for informal presentations and conversation with an audience. The K-State LASER series is co-sponsored by the DX Media Program, Department of Art, Kansas State University and Leonardo/ISAST, the International Society for the Arts, Sciences, and Technology. LASERs foster community and discussion around the intersection of art and science, serving as a platform for the dynamic cross-disciplinary conversations necessary to generate innovative ideas and perspectives.

LASERs are FREE and open to the public.
