

## **Mountaineer –Chang Pan**

From Wu: Pang is a devoted mountaineer. Every two or three weeks, he hikes in Sierra Nevada. He looks really fit, and can hike to the Mt Whitney peak at about 14,000ft above sea level round-trip in "one" day.

Comment from CDL: I once hiked with him up the Mission Peak in East Bay a couple of years back. Too bad that I never got the chance to join him on those hikes up the Sierra Nevada. His earlier shots look gorgeous. I hiked Rocky mountains a few times before but often there are dangerous thundstorms in the afternoon. On treeless terrains, you do not want to be a local peak.
