

If you have questions like these*,
you might want to enroll in
Phys 191 Descriptive Astronomy
Spring MWF 2:30-3:20

How far away are the stars?

How do we know?

What would it be like if our
world were someplace else?

How do we know?

What is the Milky Way?

How do we know?

How do we know?

What's happening out there?

How do we know?

Why is the sky black?

How do we know?

Is there life on other worlds?

How do we know?

How many stars are there?

How do we know?

How do the stars shine?

How do we know?

What else is out there?

What are the stars made of?

How do we know?

* (if your [future] students or children might have questions like these...)
