

Enrolling now for Spring 2015!

Descriptive Astronomy

PHYS 191 - Reference # 12639

Two hours lecture and one two-hour studio per week.

- A qualitative study of the Earth, Sun, planets, stars, galaxies and the universe that is aimed at non-science majors
- A survey of what is known about the universe and how we know it.
- A studio involving many hands-on activities in an interactive group setting.

This class satisfies the K-State 8 General Ed requirement.

Taught by University Distinguished Professor Chris Sorensen
