Interactions of Matter, Light and Learning

A 10-Week Physics Research Experience for Undergraduates (REU)

**Areas of Research**
- Ultrafast lasers & attosecond physics
- Nanoparticle formation & light scattering
- Nonlinear fiber optics
- High energy and neutrino physics
- Biological physics
- Atomic and condensed matter theory
- Physics Education

**Appointment from May 27 – August 2 Includes**
- $5,450 stipend
- $750 travel allowance
- On-Campus room & board

**Eligibility**
Enrolled college students who are US citizens or permanent residents are eligible for funding.

**APPLICATION**
phys.ksu.edu/reu/apply/
Rolling admissions begin 2/15/19
